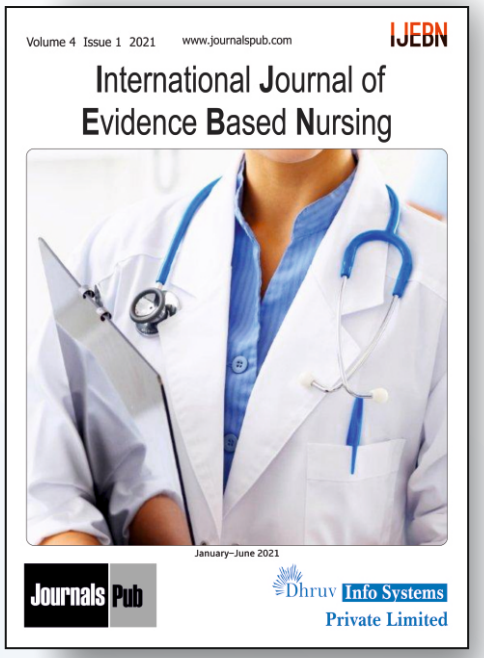
International Journal of Evidence Based Nursing

Journal No.: J0178

NURSING



International Journal of Evidence Based Nursing (IJEBN) covers the field of evidence-based nursing. It is designed to alert practicing nurses to important and clinically relevant advances in treatment, diagnosis, etiology, and prognosis. Evidence-based practice also provides opportunities for nursing care to be more individualized, more effective, streamlined, and dynamic. When evidence is used to define best practices rather than to support existing practices, nursing care keeps pace with the latest technological advances and takes advantage of new knowledge developments.
